

## RESEARCH COORDINATION MEETING

Brussels, 25 May 2018

### Questions for the discussion

- What is the current situation / future prospects of OSH research in your country?
  - Main actors
  - Funding
  - Continuity
  - Transfer of research results
  - Participation in EU projects / European collaboration
  - Challenges
  - Main priorities
- Feedback on the workshop 'Protecting workers in the online platform economy'
- Research priorities exercise – is there a need for an update? The last report covers the period from 2014 to 2020.
- What do you think EU-OSHA role would be in facilitating research collaboration?
- Proposals for topics for expert articles / experts  
EU-OSHA publishes expert articles to stimulate debate on the future of work and on emerging issues in workplace safety and health among OSH experts and policy-makers throughout the EU.

Topics already covered by the review series include

- [Monitoring technology in the workplace](#)
- [3D printing: a new industrial revolution](#)
- [The future of work: robotics](#)
- [The future of work: performance-enhancing drugs](#)
- [The future of work: crowdsourcing](#)
- E-retail
- Performance enhancing drugs (2)
- Suggestions for future research coordination meetings?
