Discussion (in working groups)

09:00 – 09:30 Introduction to day two and group works

- Introduction Tim Tregenza, EU OSHA

Discussion questions:

1. How can OSH policy-makers be persuaded to integrate e-tools into OSH strategies, policies, and practices (e.g. How do we get the Minister to say yes)?
2. How can e-tools move successfully from project to long-term use (Moving from the “throw it over the wall approach”)?
3. How can OSH policy-makers and practitioners successfully use data from e-tools to influence and drive policy and practice (e.g. in the targeting of inspections)
4. How can end-users be incentivized to use the tools (e.g. by financial benefit or by promotion of use by LI)?
5. How will the situation change in the future?
 - a. Are there new areas where there can be greater integration (e.g. economic incentives, supply chain) or
 - b. Are there new technological developments coming to help or hinder the process?

09:30 – 10:30 Group work
