COMMUNICATION AND PROMOTION UNIT (CPU)

Description of the Unit

The Communication and Promotion Unit is responsible for both the public face of the agency and for meeting its ICT requirements.

The Unit`s activities include:

- Awareness raising and campaigning across more than 30 countries and in 25 languages
- Developing and maintaining multilingual websites and data visualisations
- Multilingual publishing and the production of audiovisuals and films
- Media relations and social media
- Network communications and building and maintaining communication partnerships
- Events organisation
- Developing and maintaining the agency's ICT infrastructure and managing a wide range of IT development projects

The team is particularly interested in welcoming three trainees into the Campaigns and Events, Publications and Audio-visual Production, and ICT sections with tentative starting dates between end of 2021 and beginning of 2022.
