

Representative results in the 27 Member States of the European Union

Package including results for the EU27 and for **Ireland**

Opinion Poll Design

The pan-European perception poll was conducted through the use of an EU-wide omnibus survey. Interviews were conducted by TNS partner institutes in the 27 European Member States.

Universe:

Population aged 18+ with usual place of residence in the territory of the EU - Member States and in full command of the resp. national language(s)

Sample:

Representative random sample in each of the EU Member States (except for the Netherlands, Hungary, Greece and Belgium where a representative quota sample was drawn)

Method of data collection:

CATI (Computer-Assisted Telephone Interviews) in 19 Member States. In Bulgaria, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Romania, interviews were conducted Face to Face because of lower telephone penetration rates.

Sample size:

27.106 Interviews (appr. 1.000 interviews per country)

Fieldwork period:

March 24 - May 12 2009

Margin of error:

0,3* to 0,6**percentage points (total EU27)
1,4* to 3,1**percentage points (national sample)

Questionnaire Overview

- (1) If you were deciding whether to take a new job, which two of the following would most influence your decision? (Salary | Safe and healthy working conditions | Job security | Working hours | Others | None of these | Don't know/ no answer)
