

EUROPEAN
COURT
OF AUDITORS

Report on the annual accounts of the European Agency for Safety and Health at Work (EU-OSHA) for the financial year 2019,

together with the Agency's reply

Introduction

01 The European Agency for Safety and Health at Work (“the Agency”, or “EU-OSHA”), which is located in Bilbao, was created by Council Regulation (EC) No 2062/94¹, which was repealed by Regulation (EU) 2019/126 of the European Parliament and of the Council on 16 January 2019². The Agency's task is to collect and disseminate information on national and Union priorities in the field of health and safety at work, to support national and Union organisations involved in policymaking and implementation, and to provide information on preventive measures.

02 *Graph 1* presents key figures for the Agency³.

Graph 1: Key figures for the Agency

* Budget figures are based on the total payment appropriations available during the financial year.

** “Staff” includes EU officials, EU temporary agents, EU contract staff and seconded national experts, but excludes interim workers and consultants.

Information in support of the statement of assurance

03 The audit approach taken by the Court comprises analytical audit procedures, direct testing of transactions and an assessment of key controls of the Agency’s supervisory and control systems. This is supplemented by evidence provided by the work of other auditors and an analysis of information provided by the Agency’s management.

¹ OJ L 216, 20.8.1994, p. 1. The Regulation was last amended by Council Regulation (EC) No 1112/2005 (OJ L 184, 15.7.2005, p. 5).

² OJ L 30, 31.1.2019, p. 58.

³ More information on the Agency’s competences and activities is available on its website: www.osha.europa.eu.

The Court's statement of assurance provided to the European Parliament and the Council – Independent auditor's report

Opinion

04 We have audited:

- (a) the accounts of the Agency which comprise the financial statements⁴ and the reports on the implementation of the budget⁵ for the financial year ended 31 December 2019 and
- (b) the legality and regularity of the transactions underlying those accounts

as required by Article 287 of the Treaty on the Functioning of the European Union (TFEU).

Reliability of the accounts

Opinion on the reliability of the accounts

05 In our opinion, the accounts of the Agency for the year ended 31 December 2019 present fairly, in all material respects, the financial position of the Agency at 31 December 2019, the results of its operations, its cash flows, and the changes in net assets for the year then ended, in accordance with its Financial Regulation and with accounting rules adopted by the Commission's accounting officer. These are based on internationally accepted accounting standards for the public sector.

⁴ The financial statements comprise the balance sheet, the statement of financial performance, the cash flow statement, the statement of changes in net assets and a summary of significant accounting policies and other explanatory notes.

⁵ The reports on implementation of the budget comprise the reports which aggregate all budgetary operations and the explanatory notes.

Legality and regularity of the transactions underlying the accounts

Revenue

Opinion on the legality and regularity of revenue underlying the accounts

06 In our opinion, revenue underlying the accounts for the year ended 31 December 2019 is legal and regular in all material respects.

Payments

Opinion on the legality and regularity of payments underlying the accounts

07 In our opinion, the payments underlying the accounts for the year ended 31 December 2019 are legal and regular in all material respects.

Basis for opinions

08 We conducted our audit in accordance with the IFAC International Standards on Auditing (ISAs) and Codes of Ethics and the INTOSAI International Standards of Supreme Audit Institutions (ISSAIs). Our responsibilities under those standards are further described in the 'Auditor's responsibilities' section of our report. We are independent, in accordance with the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants (IESBA Code) and with the ethical requirements that are relevant to our audit, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of management and those charged with governance

09 In accordance with Articles 310 to 325 of the TFEU and the Agency's Financial Regulation, the Agency's management is responsible for preparing and presenting the Agency's accounts on the basis of internationally accepted accounting standards for the public sector, and for the legality and regularity of the transactions underlying them. This includes the design, implementation and maintenance of internal controls relevant to the preparation and presentation of

financial statements that are free from material misstatement, whether due to fraud or error. The Agency's management is also responsible for ensuring that the activities, financial transactions and information reflected in the financial statements comply with the official requirements which govern those statements. The Agency's management bears the ultimate responsibility for the legality and regularity of the transactions underlying the Agency's accounts.

10 In preparing the accounts, the Agency's management is responsible for assessing the Agency's ability to continue as a going concern. It must disclose, as applicable, any matters affecting the Agency's status as a going concern, and use the going concern basis of accounting, unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

11 Those charged with governance are responsible for overseeing the Agency's financial reporting process.

The auditor's responsibilities for the audit of the accounts and underlying transactions

12 Our objectives are to obtain reasonable assurance about whether the accounts of the Agency are free from material misstatement and the transactions underlying them are legal and regular, and to provide, on the basis of our audit, the European Parliament and the Council or the other respective discharge authorities with statements of assurance as to the reliability of the Agency's accounts and the legality and regularity of the transactions underlying them. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit will always detect a material misstatement or non-compliance when it exists. These can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these accounts.

13 For revenue, we verify subsidies received from the Commission or cooperating countries and assess the Agency's procedures for collecting fees and other income, if any.

14 For expenditure, we examine payment transactions when expenditure has been incurred, recorded and accepted. This examination covers all categories of payments (including those made for the purchase of assets) other than advances at the point they are made. Advance payments are examined when the recipient of funds provides justification for their proper use and the Agency accepts the justification by clearing the advance payment, whether in the same year or later.

15 In accordance with the ISAs and ISSAIs, we exercise our professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the accounts and of material non-compliance of the underlying transactions with the requirements of the legal framework of the European Union, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement or non-compliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the overriding of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls.
- Evaluate the appropriateness of the accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Agency's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the accounts, including the disclosures, and whether the accounts represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Agency to express an opinion on the accounts and transactions underlying them. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.
- Considered the audit work of the independent external auditor performed on the Agency's accounts as stipulated in Article 70(6) of the EU Financial Regulation, where applicable.

We communicate with the management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit. From the matters on which we communicated with the Agency, we determine those matters that were of most significance in the audit of the accounts of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

16 The observations which follow do not call the Court's opinion into question.

Observations on the legality and regularity of transactions

17 The Agency manages a contract relating to the preparation and implementation of the third European Survey of Enterprises on New and Emerging Risks, known as ESENER-3. The ceiling of this contract is 3 060 700 euros. By the time of our audit, the Agency had purchased services to the value of 3 134 800 euros, thereby exceeding the contractual ceiling by 74 100 euros (2,4 %) without any amendment to the contract.

18 Under a contract for the provision of training and coaching services, the Agency reimbursed accommodation costs on a flat-rate per diem amount basis, whereas the contract states that reimbursements must be based on actual figures shown on supporting documents. This poses a risk that the costs that the Agency is reimbursing may be higher than the actual cost incurred.

Observations on budgetary management

19 The amount of committed appropriations carried forward from 2019 to 2020 was lower than last year, but still at a high level at 3 386 293 euros, or 22 %. Amount carried forward relating to administrative expenditure was 319 067 euros, i.e. 24 % (2018: 468 676, i.e. 35 %) and for operational expenditure, the amount was 2 915 161 euros, i.e. 38 % (2018: 4 333 792 euros, i.e. 46 %). Large amounts of carry-overs indicate an overestimation of budgetary needs and is in contradiction with the budgetary principle of annuality.

Follow-up of previous years' observations

20 An overview of the action taken in response to the Court's observations from previous years is provided in the ***Annex***.

This Report was adopted by Chamber IV, headed by Mr Alex Brenninkmeijer, Member of the Court of Auditors, in Luxembourg on 22 September 2020.

For the Court of Auditors

A handwritten signature in dark ink, appearing to read 'K-H Le', is positioned above the printed name.

President

Annex - Follow-up of previous years' observations

| Year | Court's observations | Action taken to respond to Court's observations (Completed / Ongoing / Outstanding / N/A) |
|-------------|---|--|
| 2016 | The level of committed appropriations carried over was high. The Agency may consider introducing differentiated budget appropriations. | N/A |
| 2017 | Carry overs for Title II (administrative expenditure) and Title III (operational expenditure) were high at 40 % for each title or 3,5 million euros in total, which is in contradiction with the budgetary principle of annuality. There is no evidence that these carry-overs are related to expenditure planned during the budgeting process. | N/A |
| 2017 | E-procurement: by the end of 2017, the Agency had not introduced any of the IT tools developed by the Commission. | Completed |
| 2018 | The level of committed appropriations carried over to 2019 was high for Title II and for Title III. The Agency should analyse the reasons for excessive carry-overs and improve budget planning accordingly. | Ongoing |

The Agency's reply

19. Confirmation of a small part of the funds to cover additional countries under the Instrument for Pre Accession (IPA) for the survey was received from the Commission much later than anticipated, only once the procurement was completed and the award decision already signed. As a result, the budget for inclusion of additional countries was not included in the initial documents. Nevertheless, notes to the file were prepared recognising that the specific contracts would take expenditure over the initial foreseen volume.

20. The Agency acknowledges the point regarding missing supporting documents/invoices for accommodation costs due to some inconsistencies in interpreting contractual conditions and instructions from the leading contracting authority.

21. The Agency is indeed monitoring more closely its budget planning and implementation, resulting in lower carry-forwards from 2019 to 2020 compared to the previous year. Committed appropriations carried forward to 2020 relate in the main part to large-scale activities planned to run over three to four years and to a lesser extent other activities that are long-term. Part of these carry forwards are planned in order to ensure economy and in order to guarantee the logistical arrangements.
