

Annex XXI – List of EU-OSHA tools

1 Issue tracker

EU-OSHA has its own issue tracker tool (Jira). This tool is used for the tracking of issues with all the contractors for all the projects (development, maintenance, service desk...).

The screenshot shows the Jira 'End User Dashboard' for a user named 'Hernan Perez'. The dashboard is divided into several sections:

- Assigned Issues:** A table listing issues assigned to the user, including details like issue key, summary, status, and priority.
- Watched Issues:** A table listing issues the user is watching, with columns for key, type, status, assignee, name, and type.
- Time-Related Filter: Available Open Issues:** A table showing the number of open issues for various projects, such as 'Aviso', 'Lima', 'EU-OSHA', etc.
- Projects:** A section showing a list of projects with their respective status and progress.

2 Versioning

GitHub is the tool used by EU-OSHA for versioning: <https://github.com/EU-OSHA>. All the code developed for EU-OSHA projects should be stored in EU-OSHA repository.

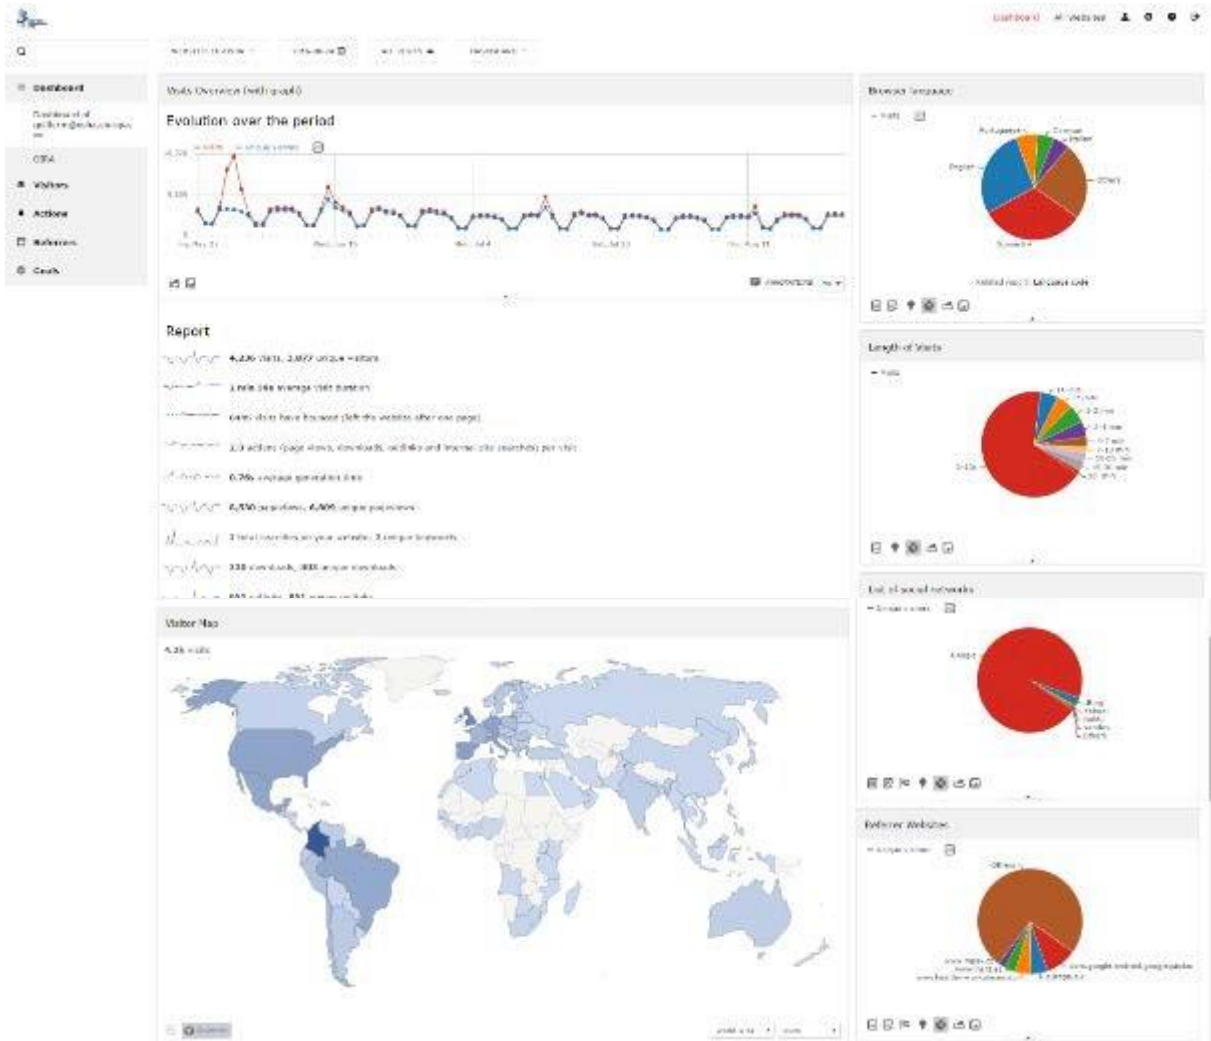

The screenshot shows the GitHub repository page for 'EU-OSHA'. The page displays the repository name, description, and a list of repositories:

- osha-website:** Updated 15 hours ago.
- osha-website:** Build scripts and code for the OSHA corporate website based on Drupal? Updated 15 hours ago.
- campaigns:** Campaign website Updated on 04/20.
- osha-documentation:** Technical documentation for OSHA Updated on 04/20.
- osha:** OSHA website project repository Updated on 04/20.

The page also includes a 'People' section showing a grid of user avatars and a 'Repositories' section with a search bar and a 'New repository' button.

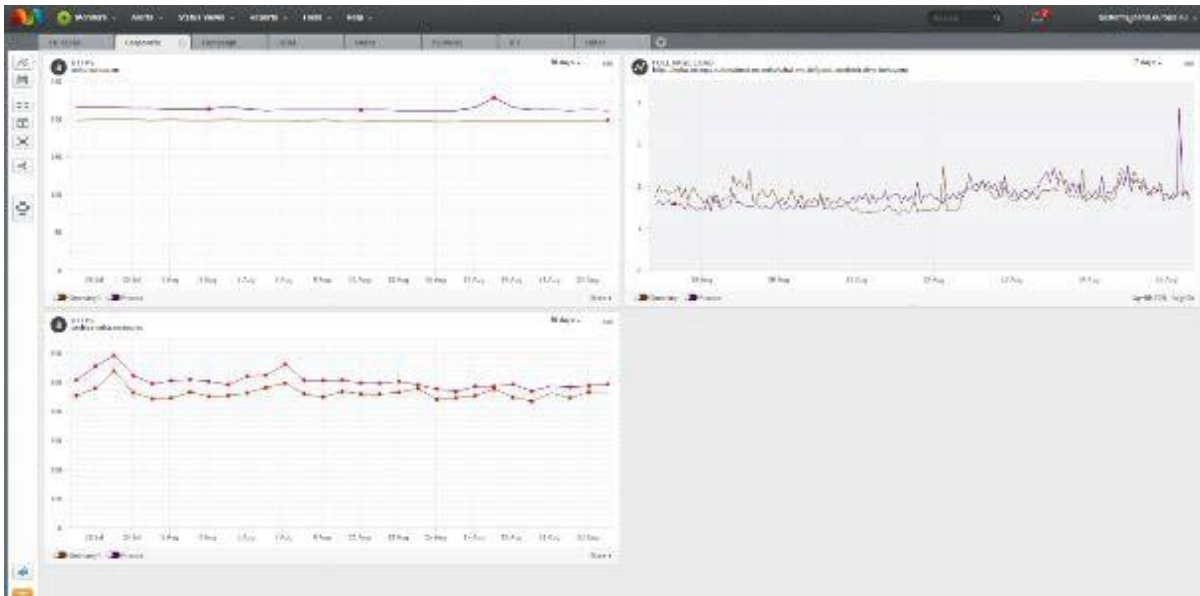

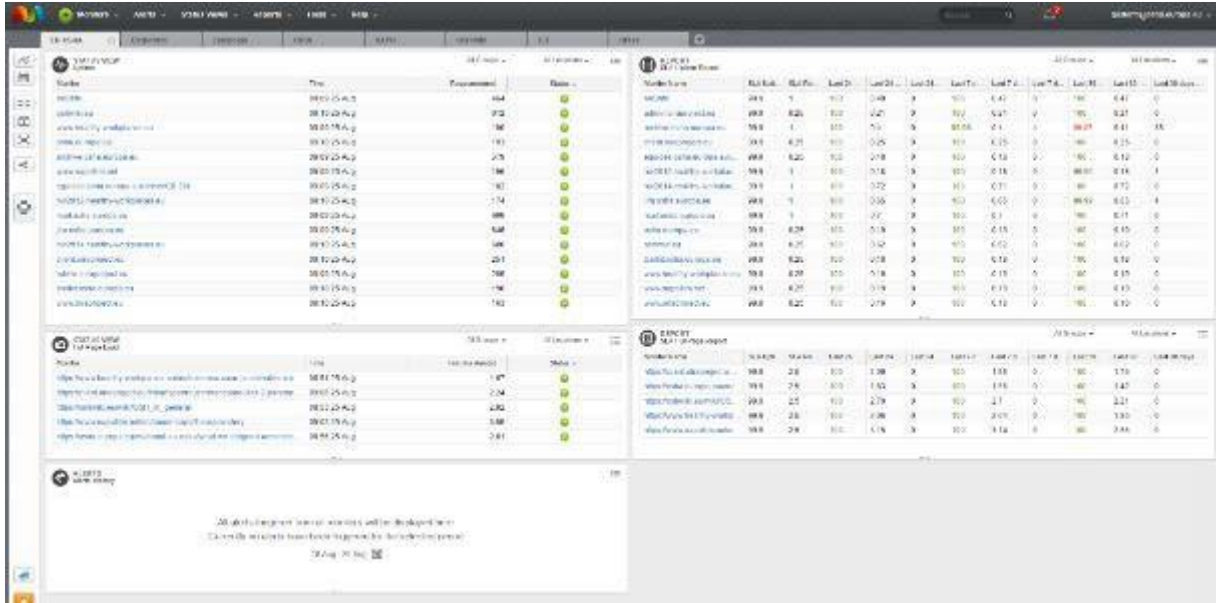

3 Statistics

Matomo (Piwik) is the tool used for statistics. EU-OSHA has its own instance of Matomo.

4 Monitoring

The monitoring is done with an online tool.

5 User Management

LDAP is the tool used by EU-OSHA for centralizing the user management for the various hosted websites:

- Corporate website
- Healthy workplaces campaign
- Napo
- OiRA
- Vesafe
- OSH Wiki
- Dangerous substances
