1. GENERAL INTRODUCTION

1.0. Preamble - Rationalisation of the budget structure of EU-OSHA

EU-OSHA has analysed the potential improvements to be done to the budget structure as of 2024, particularly for increasing efficiency in budget planning and monitoring, as well as the simplification of the budget implementation.

The main criteria followed is to group and merge, when applicable:
- budget lines not in use
- budget lines of small amount and same cost category

The proposed new structure is made in accordance with Article 36 on Nomenclature of the budget under the EU OSHA Financial Regulation:

"As far as it is justified by the nature of the EU-OSHA’s activities, the statement of expenditure must be set out on the basis of a nomenclature with a classification by purpose. That nomenclature shall be determined by EU-OSHA and shall make a clear distinction between administrative appropriations and operational appropriations. The budget nomenclature shall comply with the principles of specification, sound financial management and transparency. It shall provide the clarity and transparency necessary for the budgetary process, facilitating the identification of the main objectives as reflected in the relevant legal bases, making choices on political priorities possible and enabling efficient and effective implementation."

The new budget structure respects and maintains the principles of classification by purpose, specification, sound financial management and transparency embedded in the financial regulation.

Appropriations reported for 2022 and 2023 are for information purpose. The reference budget documents for the respective annual accounts 2022/2023 and other reporting remains the ones adopted by the Management Board in 2021 (MB/21/20) and 2022 (MB/22/24).

The correspondence between the new and former structure is available in annex.

1.1. Legal basis

Financial Regulation of 27 September 2019 of the European Agency for Safety and Health at Work
