

**G7 Technical Side Event
(3rd Health Working Group)**

**Healthy and active ageing through
Life-Long Prevention and Innovation**

Genoa, July 11th – 12th, 2024

Palazzo Ducale

Piazza Giacomo Matteotti 9, Genoa

Foreword

Back-to-back with the 3rd Health Working Group of the Italian G7 Presidency, the Italian Ministry of Health, in collaboration with the Italian Institute of Technology (IIT), is proud to host a Technical Side Event on its Health track's second priority: **“Life-long prevention for healthy and active ageing”**.

The two-days event will be held in the stunning scenario of Palazzo Ducale in Genoa on the afternoon of 11th and the morning of the 12th of July.

Following the opening remarks of our Minister of Health, Prof. Orazio Schillaci, relevant speakers will provide a comprehensive overview of the 2 main pillars of the event: life-long prevention (LLP) and innovation.

During the scheduled panel sessions, invited speakers will delve into detailed aspects of the epidemiological relevance of LLP and the sustainability of investing in it, as well as the biomedical, digital, AI and robotics applications for innovation in healthcare.

The event will be concluded with a discussion on **“AI and health”** that will engage the specifically nominated high-level experts of the G7 Members. The aim of the round-table is to detail an outcome on this theme that can be delivered by the G7 Ministerial meeting, to be held in Ancona on October 10th-11th.
