The person at the center: integration and inclusion

HEALTH and SAFETY at WORK
INTERNATIONAL FESTIVAL

12-13-14 JUNE 2024
PESARO | DUCAL PALACE

Drawing Inspiration from the principles set forth in the Urbino Charter, the work of the third edition of the International Festival of Health and Safety at Work aims to direct the debate and stimulate reflection on "work" as a sphere of **expression, realization, integration, and inclusion of the person** and, equally, on the **protection of its dignity**.

These are high issues on which the entire world of work and civil society are called upon to reflect, in order to base their **concrete actions** on those values that must constitute the foundations of a genuinely participatory prevention and protection system.
