

The BG Verkehr

BG Verkehr is the social accident insurance responsible for companies in the transportation sector, postal logistics and telecommunications. It provides insurance coverage for around 1.7 million people in almost 200,000 companies throughout Germany.

On the move to promote prevention

ISSA Section on Transportation

With its international network, the ISSA Section on Prevention in Transportation promotes the cross-border exchange of information and the development of prevention standards in the transportation industry in order to sustainably improve safety, health and well-being at work in passenger and freight transportation.
