### QUESTIONS FOR GROUP DISCUSSIONS

1. Has 3D printing/monitoring of workers been identified as an emerging innovation in your country?
2. Are there currently ongoing discussions on these topics in your country? Have any research or data collection been commissioned on these topics?
3. What are the positive and negative implications of these issues for working conditions and the labour market? What are the OSH challenges?
4. To what extent does the regulatory framework in your country provide for these topics? (e.g. legislation, collective agreements, labour inspectorate recommendations)
