

Workshop Panel 2: Experiences with concrete action programmes

The Danish Action Plan 2010
Reduction goals for:

- accidents 20%
- psychosocial working environment 10%
- noise (damaging to hearing) 15%
- noise (nuisance) 10%
- muscular-skeletal disorders 10%

Main tool : Risk Assessment

Sector examples:

- Building and construction
- Cleaning service

Results of a good Risk Assessment

- Learn from former experiences
- Workplace culture
- Follow the risk assessment + adjust
- Workers trained and involved
- Safety manager and coordinator close to the process

Measuring the Action Plan

- National survey
- Enterprise research
- Activities among the players
- The results are ready in the years after 2010
